

Change Log – Change for 10/04/2016

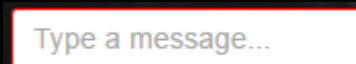

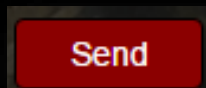

Large Chat Link

The “Chat” title on the mini chat box is now a link which will take you straight to the Large chat page.

Chat box styling

New styling for the chat text area and button

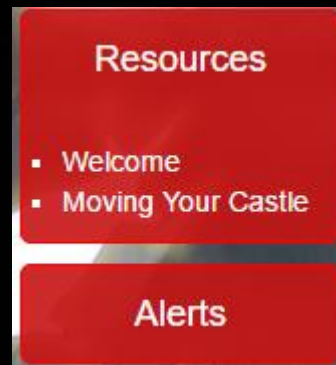

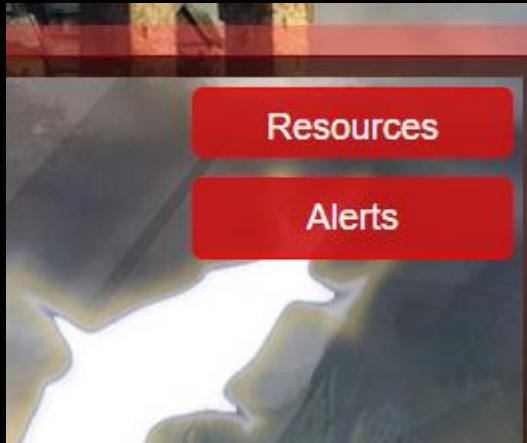

Message Highlights

A new message will now be highlighted and then fade over 4 seconds.

New Sections on banner

2 new sections have been added to the Banner area. (Alerts Coming Soon!)

Upon hovering on each of these buttons they will expand to reveal content. For mobile or touch screen devices you can click the item to expand.

Date Format

The date formats have been changed to represent a more standard UK format.

09-Apr-16 19:43 -

09-Apr-16 19:50 -

Colour for chat names

Added function to change your own Username colour within your profile options.

Colour for name in chat

#00B7F0s

Upon clicking this it will display the colour picker.

Click on anything other than the picker and the text input field will cause the picker to disappear.

Colour for name in chat

#00B7F0s

Chat row colour change

The rows for the chat box have been changed to a darker colour to support more colour for user names.

Minimise Chat

Added the ability to shrink the chat on all the pages

This will always be on the right side of the chat heading.

Chat Commands

Added chat commands (Chat Commands are case sensitive). The following are now available:

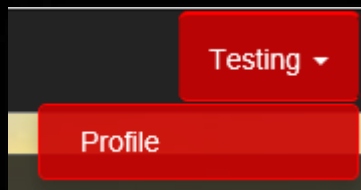

- /Settings** - Takes you to your user settings
- /LvlUp** - Add a level to your account
- /Lvl** - Sets your level to the specified number (e.g. /Lvl 20)

Updated Logo

There is a new Dragon's Blood logo which will act as a link to go to "Home".

New Consolidated User Menu

Clicking your User name will now provide a drop down menu with links that you can use.

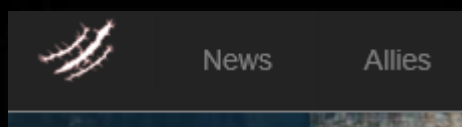

This will also contain the “Log off” link.

New Website Background

The background for the site has been changed.

Updated text for Nav Links

The Announcements are now “News”. Alliances are now “Allies”.

Performance Enhancements

The overall speed of the website has been increased, Allies and Enemies now take 1/10th of the time to load.
