For new and existing members

Once you join "Dragons Blood", it is important that you follow the steps below in order to move your castle to our cluster in each of the three realms as you manage to unlock them.

The three realms are as follows:

Realm Name	Unlock Level	Cost
The High Kingdom	Level 1	0 Gems
Ice Storm Mountains	Level 15	10 Gems
The Dark Marshes	Level 25	18 Gems

In each of these realms, the objective is for us all to group together in a cluster so that we can work together and protect each other from other groups in the realm.

Important:

It is anticipated that Dragons Blood will become a collection of groups each operated by an Alliance Leader, depending on which group you have joined you will have an associated leader as shown in the table below:

Alliance Group Name	Alliance Leader
Dragons Blood	DodgyMaster
Dragons Blood 2	TBC
Dragons Blood 3	TBC

Although we do not operate a strict leader/member policy within the alliance, we request that as a member you listen to the group leaders especially when relating to Alliance wide matters such as wars and treaties with other alliance groups.

The image below shows a portion of The Fear cluster within The High Kingdom

Please follow the steps below to ensure that you move your castle as soon as possible.

1. Make sure that you are in Map view mode and not Castle view mode

2. Make sure all your heroes are within the castle not out on the map

3. Make sure that you are focussed on your castle as opposed to one of your heroes

4. Just above the chat window you will see a magnifying glass. That is the Search Tool

5. In the find player field, type in the name of your group leader as shown in the table above

6. This will now focus the view on our area, find the spot where you want to move to, click in the map and you will see a Relocate Castle option

Follow those steps and if you are within range you will be able to reach us in a single hop

If not, you will need to make more than 1 jump, but you can only jump once every 20 hours

Have Fun,

DodgyMaster (Dragons Blood – Alliance Leader)
